Message from Director, NISM

NISM is known for its diversified activities in securities markets including teaching, certification, training and research.

Over the years and particularly during the Covid–19 pandemic, we have been witnessing major changes in the ways in which training is imparted. During the ongoing pandemic substantive changes had to be incorporated. To meet the needs of an ever–evolving learner, the e–learning team at NISM has updated its approaches that addresses the need for mobility, accessibility, quality, relevance, and practicality.

I am excited to share the news of a new course we are launching namely Certified BFSI Professional. It's a joint initiative of three reputed institutions in the field of financial sector certification, training, and education, National Institute of Securities Markets (NISM), Indian Institute of Banking and Finance (IIBF), and National Insurance Academy (NIA). The course has been developed keeping the learners in mind. It will be particularly helpful for students and professionals aiming for a career in the financial services sector.

I take this opportunity to thank the respective teams at NISM, IIBF and NIA, for the excellent work they have done in preparing this course.

Dr. CKG Nair
Director, NISM

Message from CEO, IIBF

I derive immense pleasure to announce a first-of-its-kind initiative from three of the well-known Academic Institutes of the nation in the BFSI domain, namely – IIBF, NISM & NIA, to integrate their individual industry-specific expertise into a considerably broader, all-encompassing academic programme painstakingly designed to cater to the knowledge-need of the entire BFSI sector, with a far-reaching objective of creating a population of young industry-ready and proficient BFSI professionals to contribute positively to the overall growth of the BFSI sector.

These are exhilarating times as we witness the galvanisation of the entire BFSI sector catalysed by an information explosion and digital revolution, earlier prophesized, but considerably expedited and shaped by the turbulent times. Opportunities are galore for an individual with “fire in the belly” to upgrade and consistently augment one's skill-repertoire, a trait, which has emerged as the fulcrum for adapting to the dynamic times and to surge ahead. Industry and Academia are now closer than ever, striving together to ensure the consistent availability of efficient and employable professionals, adequately trained and armoured with the all-important skill to redesign the future of the BFSI sector.

I welcome you to this programme with the sincere belief that the rigour that you have decided to put in today, shall translate into an enriching career in the BFSI domain in the times to come.

Mr. Biswa Ketan Das
CEO, IIBF

Message from Director, NIA

BFSI industry is set to grow significantly in the coming years due to India's economic expansion and growing awareness among the population of these financial products / services. That is the reason why career in BFSI is one of the best options for students as career.

The certification course in BFSI offered jointly by NIA, NISM and IIBF is a unique course to provide immense opportunities to develop niche areas. The course also offers a detailed insight into the core skills required for all the three streams starting from Basics. The course offered focuses on professional growth and

concentrates on upskilling of existing knowledge in the field of Insurance, securities market and banking, which will prove fruitful in long-run.

I have a great pleasure in welcoming you all who have joined this course offered by us and I wish this programme a great success.

Mr. G Srinivasan
Director, NIA
